SUMMARY

Creative technologist and full-stack developer with hands-on experience building and shipping consumer applications and AI-powered tools. Proven track record delivering end-to-end products for clients across mobile, web, AI, and game development.

EDUCATION

University of Sussex 2025

BSc Games and Multimedia Environments, 2:1

Relevant modules: 3D Modelling & Animation, Game Development & Design, Software Engineering, Web Development, HCI, Database Systems

Monkton Combe School 2020

A-Levels: Design & Technology (A), Mathematics (C), Photography (A)

PROFESSIONAL EXPERIENCE

Elara Solutions 2023 – 2024

Software Developer

- Hardened software systems and resolved critical bugs, improving reliability, uptime, and overall product scalability across multiple client platforms.
- Architected and integrated scalable data pipelines, strengthening both processing efficiency and data protection compliance.
- Concurrently delivered 3+ mobile projects for separate clients under tight deadlines, consistently meeting brief and achieving high satisfaction ratings.
- Operated within agile delivery cycles, contributing to sprint planning, stand-ups, and stakeholder communication to keep projects on track.

Prime Atlantic Safety Services - Workplace First Aid Mobile Application 2024 – Present

Freelance Mobile Developer

- Sole developer of a cross-platform mobile app providing instant access to first aid protocols, emergency contacts, and step-by-step incident response guidance.
- Engineered full offline functionality so critical medical information remains accessible during emergencies with no internet connection.
- Integrated location-based services to surface nearby medical facilities and optimise emergency response routing in real time.

FlexAI – Personal AI Voice Assistant 2024 – Present

Freelance AI Developer

- Architected and deployed a voice first AI agent for a client, integrating ElevenLabs TTS and Deepgram STT to deliver natural, low-latency conversational experiences on all systems.
- Built as a cross-platform desktop application using Electron, JavaScript, and HTML, enabling offline-capable AI interactions without relying on mobile infrastructure.

EROESMERAKI – Streetwear E-Commerce App 2020 – Present

Founder & Lead Developer

- Designed and shipped a consumer iOS app end-to-end: product catalogue, Supabase backend, Stripe payments, and transactional email via Resend – successfully approved on the App Store.
- Manage ongoing product iteration, content strategy, and brand identity across TikTok and Instagram (@eroesmeraki).

PROJECTS

GRIOT: African Language Translator

Solo Developer & Product Owner

2025 – Present

- AI-powered voice translation app supporting 14 African languages including Yoruba, Swahili, and Igbo, built with React Native, Google Cloud AI, and RevenueCat (three IAP tiers).
- Live on the App Store; introduces native voice actor recordings for 7 languages supplemented by ElevenLabs AI voice cloning.

Focus OS – AI Deep Work Timer (iOS)

Solo Developer & Product Owner

2024 – Present

- Conceived, built, and launched an AI-powered productivity app using React Native/Expo, Supabase, and the Claude API, featuring an XP/levelling system and Pro subscription tier via RevenueCat.
- Navigated the full App Store submission lifecycle and continued iterating post-launch with UI improvements and feature planning.

Aetherborn Portal of Worlds

Solo Game Developer & Product Owner

2023 – Present

- Immersive 3D fantasy RPG built in Unity (C#) with a custom combat system, weapon collision detection, atmospheric lighting, particle effects, and cinematic camera work.
- Demonstrates end-to-end expertise across 3D modelling, animation pipelines, game mechanics design, and Unity's physics engine.

VOLUNTEER EXPERIENCE

Zero Gravity, London

Mentor

2023 – 2025

- Mentored students from underrepresented backgrounds, delivering tailored academic and career coaching that led to improved grades, university offers, and secured internships.
- Provided personalised interview preparation, CV reviews, and scholarship guidance, directly supporting students in accessing competitive opportunities.
- Fostered resilience and self-belief through consistent one-to-one support, helping mentees navigate setbacks and develop long-term career strategies.

SKILLS

Languages: JavaScript, TypeScript, Python, C#, C++, Java, SQL, HTML, CSS

Frameworks & Libraries: React Native, React, Node.js, Expo, Tauri, Django, Tailwind CSS, REST APIs

Mobile & Cloud: iOS App Store deployment, Supabase, RevenueCat, Stripe, ElevenLabs, Claude API

Game Development: Unity Engine, C# Scripting, 3D Modelling, Animation, Physics Systems, VFX

Design & Multimedia: Cinema 4D, Adobe Creative Cloud (Photoshop, Illustrator, XD, Premiere Pro)

Tools & Platforms: Git/GitHub, PostgreSQL, MongoDB, MySQL, WordPress
